

1.	Course name: Infectious parasitic diseases
2.	Course code conforms to USOS: 25-BI-S2-E+-IPD
3.	University department: Faculty of Biological Sciences, Institute of Genetics and Microbiology, Department of Parasitology
4.	Course type: lecture (10 h) and laboratory (20 h)
5.	Degree: master
6.	Semester: winter
7.	Number of hours: 30
8.	Name, Surname, academic title: Agnieszka Perec-Matysiak, PhD (agnieszka.perec-matysiak@uwr.edu.pl) Joanna Hildebrand, PhD (joanna.hildebrand@uwr.edu.pl)
9.	Course description/Content: Introduction to the most important human parasitic pathogens and diagnostic methods as well as prevention and control of parasitic diseases. General and medical parasitology, opportunistic parasites. Vectorborne, foodborne and waterborne parasitic diseases. Selected diagnostic methods used in parasitology.
10.	Recommended literature: Foundations of Parasitology, 8 th Edition, McGraw&Hill Higer Education (selected chapters) Human Parasitology, 3 rd Edition, Elsevier (selected chapters) Brock Biology of Microorganisms. 13th Edition. Pearson Benjamin Cummings (selected chapters)
11.	Form of credit: Lecture: written exam Laboratory: test and lab skills
12.	Language: English
13.	Number of ECTS: 4
